## Rules

- There will be 3 foxes, each fox on one of the above frequencies (we may use 4<sup>th</sup> as bonus). We will let you know which ones on day of the hunt.
- You can find the foxes in any order.
- The hunt is designed for a range of experience -- easy enough for first timers, yet difficult enough to keep the experienced hunters interested...
- All Foxes are in Ellison Park.
- Hints will be available starting at 11:00. If you want/need a hint, call the Hunt Masters' cell phones.
- Plan on ending by 12:30 PM. Awards will be presented then.
- Teams may be no more than 3 people.
- Transmitting on the fox frequencies is prohibited.
- The foxes are readily accessible. For example, you will not need to cut through brush to reach each fox. If you are doing something dangerous STOP -- the fox will not be where you are looking.
- Upon finding a fox, **take the highest number tag**. (Note that this is a change from some previous hunts.) This will determine your final score. Bring the cards to the starting point at end of hunt.
- Defacing, altering, moving, obscuring (etc.!) the fox is prohibited.
- All decisions of the Hunt Master are final
- The Hunt Master reserves the right to adjust the rules as they see fit -- the goal is to have a fun and challenging hunt.
- All participants should and practice social distancing. Vaccines are a plus. You know the drill.
